

Noble wood used in interiors need a protection adapted to the use and a product that embellishes them.

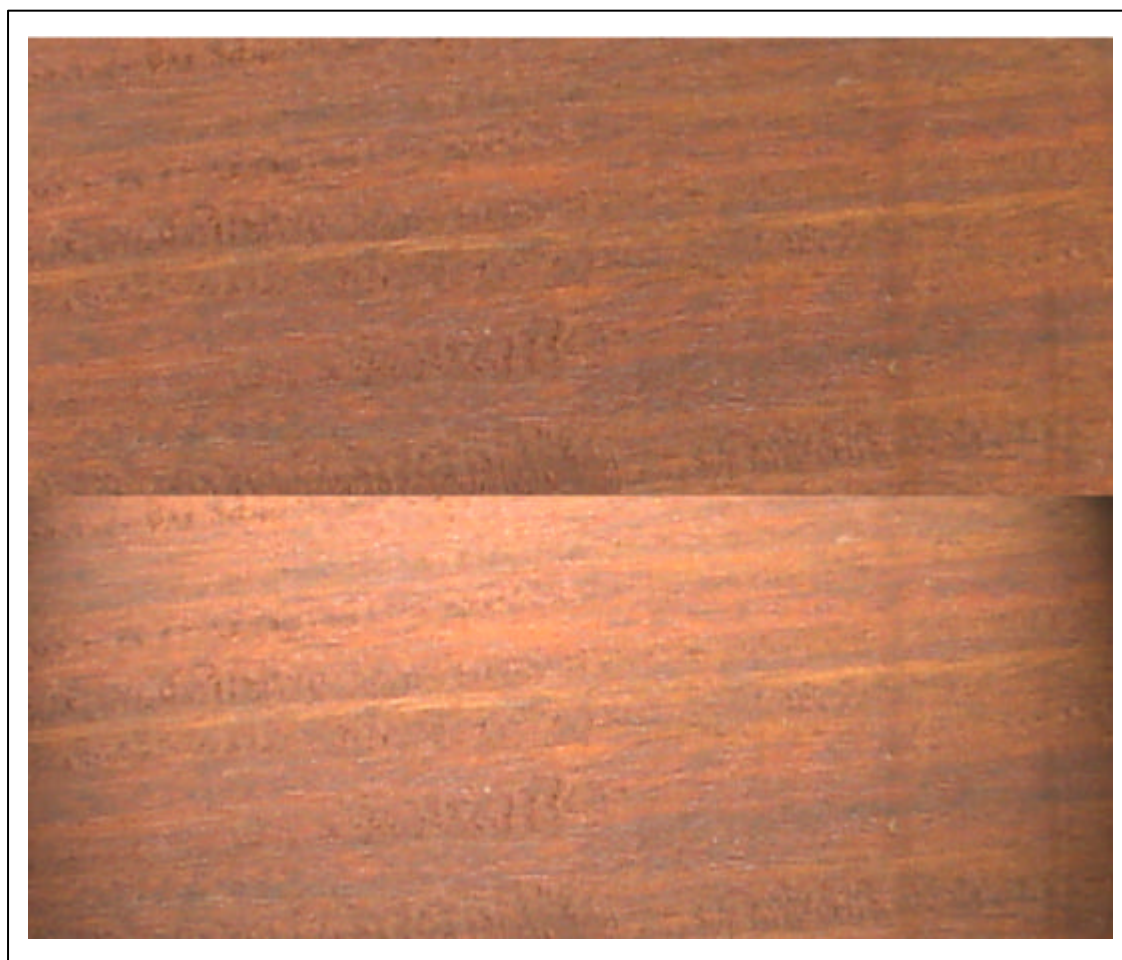

Our product is a **natural wax** combination that nourish noble wood and with a light polishing effect, they confer a vivacity and satin really natural brightness to him, it also provides a certain water repellence, avoiding the water absorption and humidity, being simultaneously hard enough to avoid rays and scratches and that if these take place with a friction they will be disguise.

It is not a filmante protection. It means that **never** feared breaking will take place.

Packaging 25 litres, 5 litres, 1 litre
