

Packaging 25 litres, 5 litres, 1 litre

Noble or tropical wood treatment requires by its nobility and cost, products highly specialized that provide to the wood a great protection without altering the beautiful appearance that these wood have by themselves.

To use this product as base coat allows in only single application to provide all these aspects:

- **Nutrition** based on natural oil.
- **Protection** to attacks of insects and inclemency (filters UV and HALS).

Due its condition of natural oil it will **never** produce the disagreeable broken aspect of that other protectors with built-in resins surely produce sooner or later.

APPLICATION:

They can be applied brush, roller and spray.

Quantities between 150/200 cc by m2 that it can change according to the absorption of the treated wood.

Wood **with** application

Wood **with no** application
