

| | | |
|-----------------------------|---|---|
| AC-2000 | : Binder for pull up effect | Binder para efectos pull up |
| AC-2005 | : Binder for high resistances | Binder para altas resistencias |
| AC-2006 | : Binder for impregnations | Binder para impregnaciones |
| AC-2007 | : Binder for natural effects | Binder efectos naturales |
| AC-2008 | : Binder high hardness | Binder alta dureza |
| AC-2012 | : Binder for polishing base coats | Binder para fondos pulibles |
| AC-2100 | : Binder high filling capacity | Binder alto poder relleno |
| AC-2200 | : Binder universal use | Binder universal |
| ALQ-30*** | : Liquid Dyes | Colorantes Liquidos |
| CC-5000 | : Polimeric wax | Cera polimérica |
| CC-5043 | : Universal wax | Cera universal |
| CC-5048 | : Polishing base wax | Fondo cera pulible |
| CC-5648 | : Pull up base wax | Fondo cera pull up |
| CGC-4005 | : Pull up oil | Aceite pull up |
| CKC-5013 | : Cationic natural wax | Cera natural catiónica |
| CKC-5017 | : Cationic synthetic wax | Cera sintética catiónica |
| DDC-7060 | : Dissembling deffects (Roller) | Disimulador de defectos (Roller) |
| DDC-7080 | : Dissembling deffects (spatula) | Disimulador de defectos (espatula) |
| EC-2250 | : Multi-charge thickener | Espesante multicarga |
| FKC-0508 | : Cationic bottom coat | Fondo Catiónico |
| FLC-0525 | : High Gloss bottom coat | Fondo-Top de alto brillo |
| LAC-7200 | : Water base nitrocellulose lacquer | Laca nitro acuosa |
| LAC-7202 | : Water base nitrocellulose lacquer (dull) | Laca nitro acuosa (mate) |
| LUC-7230 | : Urethane lacquer (hard) | Laca uretánica (dura) |
| LUC-7246 | : Universal urethane lacquer | Laca uretánica universal |
| LUC-7260 | : Soft urethanic lacquer | Laca uretánica blanda |
| MLC-7410 | : Filler and duller | Rellenante y mateante |
| MLC-7923 | : Urethanic duller | Mateante uretánico |
| PIGMENTS serie 60* | : HIGH COMPATIBLE Pigments | Pigmentos de alta COMPATIBILIDAD |
| PKC-3351 | : Cationic hard proteic binder | Binder catiónico proteico duro |
| PKC-3385 | : Cationic soft proteic binder | Binder catiónico proteico blando |
| PPC-1010 | : Levelling | Penetrante |
| PSC-3305 | : Synthetic protein binder | Binder proteico sintético |
| PSC-3310 | : Hard protein binder | Binder proteico duro |
| RUC-401 | : Polyurethane high performances | Poliuretano altas prestaciones |
| RUC-4117 | : Polyurethane medium-hard | Poliuretano medio-duro |
| RUC-4146 | : Polyurethane universal | Poliuretano universal |
| RUC-4192 | : Polyurethane high elasticity | Poliuretano alta elasticidad |
| SC-6105 | : Natural touch | Tacto natural |
| SC-6109 | : Silky touch | Tacto sedoso |
| SC-6120 | : Grease touch | Tacto graso |
| SKC-5060 | : Cationic wax | Cera catiónica |
| SKC-5061 | : Cationic soft touch | Tacto suave catiónico |
| SKC-6160 | : Slight cationic natural touch | Tacto natural ligeramente catiónico |
| UKC-4023 | : Cationic polyurethane universal | Poliuretano cationico universal |
| UKC-4060 | : Cationic polyurethane for polishing | Poliuretano cationico pulible |
| PIGMENTS serie 80*** | : Organic and Inorganic pigment dispersions | Dispersiones de pigmentos organicos e inorganicos |
